Customer Reviews

Can I do less than one star? This was a useless travel book- shallow, general, limited in scope. Not worth the few dollars I spent. Get Fodors or something else legit.

Good book but I don't think it is worth \$10. Honestly, I could have found this info online. The 10 activities it lists is nice but I just wasn't impressed. I guess you get what you pay for. :/

never made the trip to see if the book lived up to their writings

No pictures - this should cost 1.99 for small advise

The cover is as nice as the interior is dull and not interesting. It's just a few pages. It looks like a school project that was put inside a nice cover. I felt screwed when I received it
