Customer Reviews

Bought for a Russian speaker with entry level English knowledge. She loves it. Especially with all levels and cd. She uses phone apps but books are another way of media that stimulates her sense for studying. Can't go wrong with the price.

I bought this for my friend in Russia and she loves it!

Thanks. Excellent

The Living Language Complete Edition is divided into three parts - essential, intermediate, and advanced. Let me start out by comparing this with other Living Language products so that you get an idea what range of the spectrum it falls in. So far I have tried the following Living Language English study sets and they are arranged in the level of difficulty that I think they should be in and not what's actually marked on the packages: English for New Americans, and Easy English - Beginner English For the Real World - Lower Intermediate Business English, Fluent English - Upper Intermediate Getting Ahead in the US. - Advanced In the above spectrum, Living Language Complete edition falls somewhere between Beginner and mid Intermediate level. So I would recommend this for people who are at beginner or lower/ mid intermediate level. But if you are at upper intermediate or advanced level, then there are plenty of other living language resources that would be of more value for money. The three parts has a book and three CDs each, totaling to three books and nine CDs. It also has an extra notebook for you to take notes which I think was completely unnecessary. It teaches you vocabulary, grammar, and how to build phrases and sentences. It also has conversations from time to time but unlike other Living Language materials, there aren't pauses for you to repeat. I was expecting more conversations. To sum up, it does teach a variety of things and I do think it will be helpful for students at beginners and intermediate level but Living Language should seriously stop calling it the complete edition.

because living language English is great, my dad always read the book to learn more words in English. Just try it its could change your life.

I think this is a very good course to learn English. It has three different books according with the beginning , intermediate , and advance levels. Nine CDs are included too in order to be easier for the students. The price is not expensive and I am sure the people can study by themselves using

the material correctly.

Good

If you're looking for a system to use as part of an ESL program, you're really going to love this. I was impressed with the packaging and content immediately. Very professional looking, and the beginner content is appropriate.
