Customer Reviews

I cooked with this book last week, and everything is delicious). I had breakfast for breakfast "Cake with berries and cream", and I made this dish from the first time. It's just great. Everything is not in the hands, but in the ability to teach how to make delicious. And this book is my best assistant in the kitchen.

I read it carefully. Although it doesn't have the picture inside. All the book is good, I think so.

Useless recipes...No one is making those foods! Whole octopus? Soupy meatballs? Are you kidding me? There was maybe 2 recipes in the whole book that were normal foods most people would eat. Also no pics but due to the whole octopus recipe, thank goodness!

A good reference, I just wish there were more recipes for "regular people"

Awesome product and great book

This book is something classy and unique....i got so many yummy dishes from this....its highly recommended and worthy....

Love the cooker and this book.

Easy and quick meals.
