Five Little Monkeys Go Shopping (A Five Little Monkeys Story)

Synopsis

The day before school starts, Mama takes her five little monkeys shopping for clothes. “Stay right here,” she says, “AND DON’T GO WANDERING OFF!” But one little monkey has to go to the bathroom . . . and two little monkeys get thirsty. . . . Then three little monkey friends arrive . . . and four little monkeys decide to go help find the others. . . . Will Mama ever have all five of her little monkeys together again? Eileen Christelow’s vibrant, expressive illustrations accompany a catchy text that’s great for reading aloud. Simple math lessons are seamlessly incorporated into the fun.

Customer Reviews

Kids will love the slapstick plot and energetic, expressive characters, and surprising conclusion, and teachers will appreciate the seamless integration of math skills from counting to addition and subtraction. School Library Journal

Eileen Christelow has created numerous fun and funny picture books, including the Five Little Monkeys series, Author, and most recently, Letters from a Desperate Dog. She and her husband,

Ahren, live in Vermont. For more information visit www.christelow.com.

The five little monkeys are always into mischief. Great book especially for back to school.

granddaughter loves it

Love all the Five Little Monkeys books. My grandson (4) favorites *Five Little Monkeys* *Five Little Monkeys* *Five Little Monkeys* *Five Little Monkeys* *Five Little Monkeys*

This book is brilliant, as the Five Little Monkeys books tend to be. But seriously this one is SO brilliant, because it provides a hilarious way to learn mathematical concepts. My daughter basically learned addition and subtraction from this book, and reads it obsessively due to all the adorable "monkey mix-ups."

My granddaughter requested this book before bedtime many times on her visits. Even after 2 years, it's one of her favorite picks; only, she reads it herself now! Good use of repetition for budding readers. They will also enjoy trying to keep track of the busy little monkeys in the fun illustrations.

I bought this book for my daycare kids & they love it. It goes adorably with the other monkey books & they are a well loved favorite at my house!

My preschool class loved this new addition to the "5 Little Monkeys" series. As a preschool teacher I love all math concepts (counting, addition, and subtraction) that are incorporated into the stories... the kids don't even realize they are learning something as they follow along with the silly monkey stories.

Grand Kids love the five little monkey books. We have all of them ,just wish the would come out with some new stories.
