Customer Reviews

"The Information-Literate Historian is one of the most innovative guides to exploring traditional and non-traditional, electronic resources I've seen. Rather than make alternative and electronic sources an add-on, this book makes them the core of the exploration. At the same time, the author encourages students to read material fully and to use it, as she says, artfully. Guiding students to use parts of books or articles-and to mine sources-is hard to do, but Presnell excels at it."--Thomas Humphrey, Cleveland State University "My students love this book. The author provides relevant, accessible, well-organized chapters on topics not covered effectively by most other research guides out there."--Christina M. Jimenez, University of Colorado, Colorado Springs

Jenny L. Presnell is a Humanities/Social Sciences Librarian at Miami University, Ohio.

I needed this for my inquiry to history class. This book helps me so much! It's a must have if you're

interested in majoring in history.

Very useful for my Historical Methods course.

This is an excellent book for researchers and writers of history. I will be using it with my college history students in the future.

All you need in searching the right source

Super useful reference. Will definitely keep this around to refer back to later in my teaching career.

Check your copy EARLY if at all. If this is for a course, I'd buy it early and make sure it's correct! Pages 27-74 are MISSING. Since the seller has some history with returns having this problem, WHY are they still being sold. Bad faith, not worth the time problem it has made for me.
