Just recently I expanded my personal reading practice of Tarot with the Lenormand Oracle and am amazed with its instant and direct response and accuracy. I started with Mr. Harold Josten deck and have so far acquired some other decks as well. I am currently studying Rana George's outstanding work (The Essential Lenormand) and should keep building my knowledge and understanding of this fascinating Oracle with Caitlin Matthews's superb contribution to the Lenormand community (The Complete Lenormand Oracle Handbook). Then, I came across Mr. Katz's deck/book recently released, and was immediately drawn to the cards in the set. When I first opened the package, I looked at the cards and silently asked myself "How are these cards going to speak to me?" I picked up the Handbook and randomly opened to inspect the contents, as the meaning of "The Birds" page opened up. My eyes automatically focused on the quoted statement in the second paragraph "Age-old wisdom, being awakened when others are asleep. Not only "The Birds" card means communication, but the message (answer to my question) was loud and clear. I am very pleased with the cards, beautiful rendition of the Dondorf 1887 cards printed in Europe with an added vintage touch. The Handbook is quick and direct in describing the meanings of the cards and sometimes in a more philosophical way without departing from the general understanding of the cards meanings which makes this set a must for any beginner in the Lenormand path. Excellent introduction and solid understanding conveyed by a true teacher is a perfect way to begin building one's knowledge and discovering how the cards naturally speak to you. At the end of the book we are treated to Mr. Katz's "Master Grand Tableau." His technique and approach (and frames or reference, literally) have gone beyond any I've learned so far. I have applied this reading technique to my first Grand Tableau that has come to pass, and was stunned with the extra accurate information obtained and a deep understanding of some still obscure facets. Thank you Mr. Katz for your valuable contribution and the sharing of your knowledge is much appreciated.

This kit is totally for beginners. No new added information or new author input. The cards are the same old deck made for many other sets, kits. Very generic. The kit box is cheaply made and falls into the inside of the box to fill up the empty space. The lid seaps down into the box so the lid can't stay level because the box is too big for the material inside of it. Looks like this kit was put together in a hurry.

If you are just starting out, this is an awesome book and deck. I only expected a book, but cards came too. This is very basic...first time, curious people about Lenormand need to start here!

Well, everything Marcus & Tali do for the magical world...is Gold. This perfect little set of Easy Lenormand fortune cards and book is yet another awesome and intriguing purchase/investment. 5 Stars!

Great

They look a little cheap and the colors are a little washed out. It is as if the prints don't have a lot of definition.

Just what you see here. Haven't read the book yet, but the cards and the book look great. It should be kept in mind however, that Mlle Lenormande's actually used regular playing cards, and the cards commonly thought of as "LeNormande" had nothing to do with her. She never saw anything like them. The pictures on these cards were created for a game in Germany years later.

Excellent package of fortune, wish I had discovered this system earlier, the book and the cards are a burst of light vibrant colors.
