Case Studies In Special Education Law: No Child Left Behind Act And Individuals With Disabilities Education Improvement Act

Synopsis

Eighteen case studies capture important issues within the IDEA and NCLB legislations and provide real-life context for studying special education and the law. Topics include accountability; participation in high stakes assessment; the referral and prereferral process; zero reject, child find and discipline; nondiscriminatory assessment; appropriate education and IEPs; least restrictive environment; due process; and parent participation. Readers will see a variety of students, issues and interventions (both best practice and less than best practice) and have opportunities to examine the legal issues and other issues behind each case. ã ã

If you read only one book on special education case study law, make it this one. Spoiler alert: the butler did it.

The book is a rich resource of laws related to the special education system.

This was a text book needed for my Special Education Law for the Class course. The scenarios were great examples and really pushed your understanding of the law and how it is applied.

I bought this for my class, and to be honest I have wondered while reading it, how true these stories are. Good examples I suppose in order to prepare me for being a special ed teacher, just seems a little watered down at times, or clearly biased in some way.

This book has helped me to better understand special education and to prepare for upcoming comprehensive exam.

I needed this book for class. It was reasonably priced and arrived quickly.

Great book, needed it for a class in graduate school.

I'm taking courses to become a diag. This book is very helpful. Case Studies in Special Education Law: No Child Left Behind Act and Individuals with Disabilities Education Improvement Act is a great resource to have.
