The Inca Prophecy (Order Of The Black Sun Book 20)

Synopsis

The sea off the coast of Spain holds a secret, buried under centuries of superstition. It has a reputation for being some hellish territory, where crews disappear and ships inexplicably drown in its sublime waters. This is where Billionaire explorer David Purdue takes his new yacht out for its maiden voyage. He discovers something under the water that sets into motion an ancient Inca prophecy that would apparently open the hidden city of El Dorado. In Sagunto, Spain, a murder investigation inadvertently leads Captain Pedro Sanchez into the dark underworld of relic hunting, involving an occult practice he knows nothing about. A young boy is kidnapped by even-tempered Madalina Mantara, but her brother insists that she was under the control of her therapist's hypnotic powers. When Madalina and her brother go missing, Sanchez contacts historian Dr. Nina Gould for advice, and soon they find themselves in pursuit of the Order of the Black Sun's agents. With the maleficent psychologist at the helm, the boy and the siblings are abducted to South America, while the impending solar eclipse marks the imminent culmination of the Inca prophecy they are all a part of. Now Captain Sanchez teams up with Purdue, journalist Sam Cleave and Dr. Nina Gould in a race to save the child from a terrible fate. In the mountains of Machu Picchu, Peru, they hasten against the solar eclipse and are forced to consider: do they have free will or are they all part of an ancient prediction?

Customer Reviews

Great story! Nina, Purdue and Sam are the kind of people you want on your side when you get in trouble. Exciting adventure full of twists in a well-researched setting. Looking forward to the next one!

good book, fast action, a bit disconnected

Storyline is good. Someone needs to proof read these before it goes to print.

My 20th review of this series and I can finally say that the descriptive passages are better. Not good, but better. The plot, characters, action sequences and settings are all A level. I still believe the author is German who has trouble with English scene descriptions. He needs an English or American co-author. His stuff is certainly entertaining, so I will stick with him through thick and thin.

Love this series. Plenty of action & always getting out of harrowing life threatening situations.
