Judy Hanna is an expert research analyst with a twenty-year broadcast and print media background. She is a strong advocate for senior citizens and has created events and publications for many years to meet some of their pressing needs. She believes strongly that the moral test of society is how those in the dawn of their lives; the children, and those in the twilight of their lives; the senior citizens, are treated. She is a Christian woman with a message to share that could cause positive impact for the lives of millions of Americans.

What an awesome book! Our seniors are a precious treasure and it's about time someone stood up for them. Thank you, Judy Hanna, for doing that. A must read for young and old alike!

Wow is the main word that comes to mind when I think about how to sum up my thoughts about this book. Informative, shocking and incredibly helpful in bringing the issues of crimes against people in america 60 & older to light and knowing how to avoid them.

This book is a must read for every baby boomer and senior citizen and their families to prevent negative and abusive care they may be subjected to in certain facilities and families. This book has all resources needed for for a happy and quality of life for our senior citizens.

Ms. Hanna has done a good job mining this data and compiling it in one location. Anyone with relations approaching seniority or approaching seniority himself will find this information useful.

It is with great pleasure that I get to write a review for this book, for my publishing company sifted through the mountain of manuscripts looking for a great book to get behind, and this was it! When I read this book, I cried realizing that the information in it could save my 75 year old mother or my 76 year old husband from being abused because I became educated on what to look for and what to do about it. What a great resource, I was blessed to be privy to the information in it, and blessed to meet and work with this wonderful author who is not concerned about selling a million copies, but is concerned about improving and saving lives of our seniors. You are gonna be old someday, might as well get educated now! Read the book. :-)

In "Aegism Activism: Deadly Secrets Revealed That Could Save Your Life," Judy Hanna delivers a powerful indictment of elder care - or abuse - in America. Indeed, so shocking and widespread are the mistreatment of our parents, grandparents and elders as documented in this book, that you can't help but ask yourself: "How did we ever get here?" Judy answers that question, but also offers a road to recovery. I felt angry and saddened, but hopeful before I was done. Thank you Judy for giving a voice to people who's voices obviously aren't being heard.

Baby boomers and senior citizens say this book arms them with the information they need to save themselves from becoming one of the six million homicides per year that are undetected and unpunished. It is like having one of God's Angels on your shoulder helping you navigate a dangerous minefield!
