Customer Reviews

Marie Manuchehri's Spirit Guides CD is amazing! In addition to guidance and exercises on how to communicate with Spirit Guides, Marie includes a range of advice and information on how to increase intuition, healing, understanding of the world, and maximizing self-empowerment. Marie's gentle and friendly tone is enhanced by the vignettes she shares of her personal journey sprinkled throughout the audio. Several wonderful short meditations are offered to encourage ongoing relationships with Guides -- opening the possibilities and benefits these active supporters can provide on a daily basis as well as for important decisions and direction. The value of a weeklong seminar (perhaps a year-long mentorship program) is available in this uplifting compact disc to be revisited again and again. *How to Communicate with Your Spirit Guides: Connecting with Your Energetic Allies for Guidance and Healing*

Marie guides you gently through a spiritual experience you will never forget

I have a library full of Self-Help & Spiritual cds & books, so this is just what the Doctor ordered for connecting with & having Guidance that is right & specific for me in my life now. It easily invites one into the learning experience & fully covers Human/Spirit that one can go back to as it offers access to where one is & what one is working on & what would be helpful. I found it healing & deep & fun to do & recommend to anyone wanting their own Counsel going through life's challenges.

A "down to earth" guide from what seems to be a down to earth woman without all the new age "buzz words". Seems I keep playing over and over catching new information on each listen. Her voice is extremely comforting. Great audiobook for us seekers.

If you visualize easily and enjoy guided visualizations then then this audiobook will probably be fun for you if you are a new age person. The author is a skilled energetic healer who describes many situations from her personal experience. If you find it difficult to visualize then a clumsy lost feeling of not accomplishing anything by listening may be the result instead.

Inspiring and comforting. I love her guided meditations and her encouraging guidance.
