Grade Level: Preschool - Kindergarten

Customer Reviews

PreS-Gr 1 Sweet Maisy the mouse returns in familiar, primary-colored gouaches heavily outlined in black. In the first book, she gets ready for bed, finds her misplaced Panda, and, at the last minute, the pair remember to use the toilet. The second book is a real charmer. Maisy's pal Tallulah helps set up and repair a wading pool; then the girls team up with Eddie the elephant so that all three can cool off. Both titles show toddler-empowering vignettes; Maisy's Pool offers just enough plot and tension to appeal to rookie readers as well. Gay Lynn Van Vleck, Henrico County Library, Glen Allen, VA Copyright 1999 Cahners Business Information, Inc.

Lucy Cousins is one of today's most acclaimed young author-illustrators of children's books. "I draw by the heart," she says. "I think of what children would like by going back to my own childlike

instincts." And what instincts! More than 300,000 copies of Maisy books have sold worldwide. Lucy Cousins lives in rural Hampshire, England, with her four children—ample inspiration for Maisy's future adventures.

We love the maisy books as well as others by Lucy Cousins. Great books for toddlers. Fun, bright colors.

Every since we got this, it's now my 2 year old's favorite bedtime book. He makes me read it at least 3 time in a row every night. Every time we finish, it's "One more time Maisy?" During nap time, he'll get out of his bed and find it to "read" to himself. I keep finding it in his bed! Cute story and pictures, perfect bedtime story.

Love the series!!!!

Very sweet story about our favorite mouse getting ready for bed. I love all the books I've read in this series and find the artwork bold and attractive for babies and their parents. The downside for this book: the pages are coated, and they are sturdy enough, but they are paper and not good for tiny babies (ours was 4 months when I bought it, which was too little). The book is also stapled together, which makes it seem less than it is. Finally, and this is picky, I think this is from a DVD and so the images look a little like they are from stills - highly sophisticated stills, but stills nonetheless. Oh, and there's an ad for other Maisy-type books on the last page, in black and white. But it's still a very nice story about all the things a little mouse does before going to bed, and having a routine and reinforcing it are probably great things for us to read about as our girl gets older, so it's still a good purchase.

I'm not a fan of the Maisey books, there's just not much substance to them and I personally don't like the illustrations. My 2.5 yr old LOVES them though. And she's the one whose opinion matters, and she's give it 5 stars!

The book was in poor condition, but I am leaving 5 stars because when I contacted the seller they replied immediately and gave a full refund. The story itself is awesome! Perfect for a toddler who is getting ready to potty train or in the process of. It shows Maisy getting in bed and then getting back out again because she forgot to use the potty! lol

I got this book, in fact, a gift set when my first-born was 11 months old. She is a year now and my husband reads this to her every evening before her bed time in both language - English and Mandarin, while she is holding the Maisy in her hands. I don't think she quite understands what this story is about, but it's the color, the texture of feeling a book that matters, and I believe strongly that to get her interested in books the earlier of her life the better. She carries the Maisy toy to bed and falls asleep. I just wish I could find a bigger size of Maisy toy to let her hold on to. In short, this is a good book, I am planning to get the rest of them, if you can find a gift set with Maisy toy, get it.

I used to watch the show when it was on Nickjr ages ago. I was an older child when I did watch the show. Now being a young adult with kids of my own I can say this is a purchase well made. The book is very easy to read and for any toddler to understand, a perfect bed time story.
