## Customer Reviews

This book is one of the most comprehensive studies on cult symbolism that I have ever had the pleasure of reading. Unlike all of the Illuminati videos that we all have seen on YouTube, Mr. Weishaupt goes in depth of what these symbols mean and how they have come to be. A checkered floor is not simply a sign of Freemasons, for example, but they are a symbol of duality. He goes on to explain how duality is an important concept in occult belief systems, and how that is an important representation in the imagery, therefore, changing the entire meaning of what's being displayed before us. This author takes time in giving the background of the Who, Why, When and Where, rather than just the What. I have learned much about Alister Crowley and his beliefs and other cults that he was a part of and the overall message that this man wanted to send out and his influence in pop culture. This book is truly a powerful, eye opening read.

Fascinating and comprehensive research on the truth behind the hip-hop music industry! Weishaupt explains the ritualistic magic that takes place behind the scenes of our 'entertainment' and how the elite are slowly indoctrinating the whole world into satanic belief systems. There is a lot more taking place behind the veil of reality that we don't see... illuminati blood sacrifices, mind control programming, and satanic practice of ritualistic magic. This book is a MUST HAVE for anyone who is awake to the Great Deception... and it's a great resource to use when trying to help other people learn the truth about what's really going on in the world.

I thoroughly enjoyed the immense amount of information pertaining to the hip/hop industry. As a factual conspiracy theorist, the information was thorough and authenticated. I highly recommend it.

Very interesting and seemed well researched. I liked that the author was as non-sensational as he was given a very sensational topic. It definitely opened my eyes and redoubled my desire to limit what my children are exposed to as long as they are under my supervision.

Every parent who has a child who loves music and watches videos should read this book. Even though I knew certain things to look for in music videos before I even read this book, I now know

that actual rituals are being done in the freaking videos. How blatant!! Right in front of us.

Brings up interesting conspiracy theories that are scattered out on the internet/textbooks and endeavors to snap the puzzle pieces together in order find truth and clarity in the midst of all the confusion. Makes for an entertaining read, take it with a grain of salt.

This book exceeded my expectations. I couldn't put it down. It is well-written and enlightening. Weishaupt provides multiple perspectives encouraging readers to research and construct their own opinions. A must read!

Worth the read, offers a indept analysis without making too many assumptions, gives the reader enough leads to persue their research and self study.
