1. Maps are a nice game aid. Just wish they was bigger. Should add a clear grid overlay for meters.2. Its a 19 page booklet.3.The picture online is good and inviting. What I received was a black & white picture with a thin paper cover.4. The information in the description needs to be clearer on the back and online to know what you are getting.Really... These are starting to grind at me. Always enjoyed the system and this is a disappointment.Just going to start checking out the

pdf's online and see.

The cover, while here is shows in bright vibrant color, is actually in black and white. For what you get, cost wise, to not have a color cover is not excuseable. So not sure if its later printings that they used black and white or what. So yes, its actually a great product, but deceptively pictured. OK I'll put back two more stars, but I wanted to give it zero for the bait and switch, chummers.

While this does seem overpriced to me, the maps are nice and the 22 page booklet does have some nice ideas for scenarios. Pick this up if you don't mind splurging.

I bought this for my husband and he loves it. he has already been using it. the d&d kids like it too.

Good maps. Multiple quick-start and in-game scenarios for reference Has small to in-depth runs complete with npc's adn logistics data on ready to use locations

The best review I can give is I'm using it in my game. I guts love it. I would tell my friends about it

High Society & Low Life has a number of very nice full color maps. The maps are two sided. One with a key and one without. There is also a booklet with several adventure ideas to use on each map. Nice for a quick thrown together night of Shadowrun.
