Customer Reviews

I bought this Oxford German dictionary after searching through the many choices on . I wanted something that was comprehensive but not too expensive. I also wanted it to be a paperback. I settled on this one because it is comprehensive and contains over 300,000 entries. That's excellent for a beginning student like me as I believe it will carry me through to the advanced level. I have Oxford English dictionaries and I am very pleased with those layouts and was really looking for something familiar and reliable and feel this is it. I think this dictionary will work well for any student at any level. I highly recommend it.

I wanted a German dictionary. One that had the German words in alphabetical order and had definitions in German. However, this is a English to German and back dictionary. I didn't want one of those because they are usually so simplistic. But, this one surprised me. It is very in-depth and gives various meanings for the words so you get exactly what you're looking for. I'm learning

German and wanted the German definition, but this is exactly what I needed. Thank you, God, for making me a dufus and buying the wrong book. I love it.

Great book, the first half is german to english and the back half is english to german and in the middle there are little tidbits about the culture and stuff. I'm taking my first year of german and it's been really helpful. A bit big to carry around in my schoolbag though.

It helps to have this dictionary handy. It has a German section word look-up as well as an English word look up to find the equivalent word in German. It's a good size with good print size for the older reader. There is other information in it about culture.

This is what you need if you only had one reference handy. It is the right size with the right amount of information. Something you will keep handy for a very long time. Get one and you will be good to go.

Outstanding, concise, easy-to-use reference for the beginner and the advanced student of the German language. Sehr Gut!

This was a huge dictionary, not compact as title indicates. Weighs a lot, returned it

Simple and easy to understand. Also contains a great section explaining grammar and some phrases
