Our five year-old son LOVES this book and has requested it to be read to him almost every night over the last few weeks. I almost have it memorized. :-) The story is an easy read before bedtime or any time. It is also simple enough that he can begin reading it to himself, since he's now learning to read. Each page has simple words and short sentences with fun pictures and bright colors. And each story has a nice moral to teach. While other Disney Cars books have stickers, this one does not. The Step into Reading series 2 books are very nice starter books for a child who is learning to read. But it's quick read, so if you're looking for a book to read at bedtime, you might want to add a number of other books like this. I read three or four of these a night before he starts to fall asleep.

Of course, they like anything CARS, but the fun thing about this book is how Mater hides through

the whole thing. They love to find him. It's a really fun birthday story!

We bought these as party favors for my son's birthday instead of a bunch of plastic junk, my son LOVES this book, we read it at least once a day.

We gave this to our 5 year old Grandson for his birthday. He loved the story and it had just enough words to challenge his beginner reading skills.

My four year old loves to read this book to me. The words are printed large so that they are easy to focus on and follow with your finger. The illustrations are bright and colorful. All of my kids favorite Cars characters were included. Well worth the price.

Mater's my grandson's favorite Lighting McQueen character. He liked his new book, a gift just for him at his older sister's Bday party.

Bought for a child for a Cars themed birthday - cute book, easy read.

I bought this for an airplane ride for my son. He loves this book!
