Honeymoon Ideas is a great guide that gives you oodles of tips and tricks to ensure your honeymoon goes off without too many hitches. I like the fact there are lots of different locations briefly discussed. Giving you just enough information to warrant further investigation or not. I never had a book like this when I planned my honeymoon. Perhaps that's one reason it's over?? lol There's something in here for everyone. See for yourself!

I wasn't able to afford a honeymoon when I got married but my husband and I would like to take a trip now, as a late honeymoon. I am so glad that I decided to check this book out, it gives you great alternatives to the typical location, that will not only save you money but get you the same if not better experience. I am very excited to start looking more into these new locations

honeymoon ideas is a perfect combination of advises and suggestions. Very brief read but you would get something on it especially for couples planning to have this. Asia, Australia and Africa destinations were featured where pros are given and its giving you choices on what adventure matches your preference. Great read!

Great book with great ideas. Nice to have everything condensed down to one book. Nice that it offers advice on prices, honeymoon packages and currency exchange. Recommend.

The book is a nice one. It is helpful in making your most important chapter in your life memorable for ever! One must read once!
