Customer Reviews

The book came on time and in perfect condition like expected for a new book. The book itself was good. It took me about an hour or so to pre-read it for my daughter. In this book we find out a lot more about the aunt in the home, and her father Great uncle Spiderwick who disappeared...

Bought this book for a group of student's in my class who had read the 1st 2 books in the series. They are struggling readers, but have been highly motivated by these books.

This was for my 11 year old son and he loved it. He does not like reading, but he was actually reading this series without being asked.

My 8 yr old and I read this series EVERY night! We love it! We are actually on the last book of the series and he's already asked if we can maybe re-read the series from the first book to the last again. heheGreat writing and love how they present the books and the style of the book. Very nice. I like that they encourage kids to write their OWN stories about fairies and creatures in their imagination. A series every child should have in their book collection.

Our 10 year old loves these. Book was in perfect condition.

Thank you.

My kids love this book and it's many sets
