Ordered for a gift and it being used by a person who collects buttons. Very informative.

I ordered this book new from because I was looking forward to getting the miniature button that was supposed to be attached. There was no button attached. It's a cute miniature book but you may as well get it from one of the used sellers.

This book may be tiny, but as a button collector, I found it to have some very interesting facts and beautiful buttons in an easy to read and fun format. It will make you want to collect buttons!!
