Customer Reviews

Joe Kertzman has authored 12 editions of the Knives annual book, as well as the Art of the Knife, BLADE's Guide to Making Knives and four editions of Sporting Knives. Joe is also Managing Editor of BLADE Magazine.

I have the entire series of Knives annuals. I enjoy the pictures and descriptions. The articles are always interesting. Well worth buying all of the series.

All of these series books have nice great pictures in the first half or so of the pages then page after useless page of phone book style listings of maker after maker. This info would be better put on a single "source" web page and be more up to date as well! BUT then this book would look more like a magazine than a book. You see this black and white w/little to no photos in the back of the book is cheap filler to make your magazine look like a book, we all did it in school, you know triple spacing, redundant verbage, etc. I still like these books simply because I buy them a year old and get them for magazine prices. To see one new knife design makes it worth the price.

thanks

Knives 2010 is a great addition to any knife enthusiast or collector. The chapters are well written and include quite a bit of information concerning trends and this volume includes a knife making dvd. A good buy for sure.

book was as advertised.happy happy happy

While the first half of the book had some good pics, the entire remaining half had nothing but contact info. You're losing it. Very disappointed!!!!

I get the Knives each year for my husband who makes knives. He keeps each issue and I know enjoys looking through them. If you like or make knives, I highly recomend the yearly Knives books.

Not sure I would have bought one with prices in it, but think my son, 19 will still enjoy it. He loves knives and guns.
