Great product.

Great!

Who doesn't love Geddy Lee and RUSH!!

This book is a lot of fun for bass guitar players. The CD that accompanies it is really great!

Very accurate, a quick and easy way to learn the songs I love having the ability to change the tempo and not the key

Love the tab book and CD, but I wish there were more songs covered. Yes, so many tabs online, but the CD makes a great addition to this book.

Brand new, fully packaged, straight off the book shelf and brought to my mailbox! I'm definitely ordering more in this series!

I have been playing bass for a number of years and have always loved the music of RUSH. While this book will not have you playing exactly like Geddy Lee, it will give you a good roadmap to go where he has been. The subtle nuances that a truly talented musician brings to his music are as unique as his fingerprint. Having a Geddy Lee Signature Bass will not make you sound like him and neither will a more complete book. This book is great fun! Well worth the price.
