## Customer Reviews

I enjoyed this story, especially as it was written from the perspective of an angel. There is some minor editing work needed, but the errors aren't overly distracting. The conversation between the

four year olds near the end of the novella needs some work also, as it is very formal and stiff. Four year olds can be best friends for a week before they learn each other's names; that's just how they roll. All in all, I liked Arrows & Angels, and look forward to reading Swords & Stilettos.

I have yet to find a Kristen D. Van Risseghem book that I could put down until it was the end! This one was the same, loved it, loved it, loved it! Can not wait for more!

I haven't read any other books in the series, but I'm definitely interested in seeing where this is going after reading Arrows and Angels!

The synopsis made it sound so good, but I barely made it through the first chapter. Just lost my interest.

Needs more

Good book, I enjoyed the biblical references and the story line was interesting. The ending fell short for me as I wanted to know more.

loved it - I recommend it to any who like fantasy.

I received this ARC book for free from the author which had no influence on this review. I was under no obligation to provide a review. I'm a big fan of the Enlighten Series (dying for the next book!) so I immediately jumped at the chance to read this to tide me over while waiting for book 3. This is told from the angel Keirnan's perspective and is a prequel to the actual series. It shows how he was chosen for the specific task of finding and protecting the redeemer, Zoe. Kiernan is one of my favorite characters so it was exciting getting to find out more about his past and see the journey he went through to find that special baby. The ending made me fall in love with the series all over again and I'm excited to see where it goes in the next book. If you're a fan of YA urban fantasy I would recommend this series and you should start with Arrows & Angels!
