Andrew Rodican, PA-C is a graduate of the Yale University School of Medicine Physician Associate Program, served for three years on the admissions committee of Yale's PA program, and is considered an expert on the school admission process. Through his books, national seminars, and

individual coaching programs, he has helped thousands of Physician Assistant school applicants achieve success.Ã Â

I'm a Sophomore college student who finally decided what I want to go for a career. I researched heavily on the physician assistant career and various PA programs around the united states. I picked up this book to understand more of the interviews and the essays in order to be accepted into the programs. The book really helped me understand what the student needed to do before applying and offered many do's and don't as well as giving many resources on financial aid, healthcare experience, and the interviews and the essays. I highly recommend this book to any student who is interested in the career.

This is a very helpful book for anyone who is considering the physician assistant route! I learned so much and keep going over certain sections. Highly recommended

Great reference

This book has been out for twenty years, read by thousands of applicants, and now in it's 4th edition.
