Perfect (Flawed)

Synopsis

In Cecelia Ahern's thrilling sequel to *Flawed*, Celestine must make a choice: save just herself or risk her own life to save all Flawed people. Celestine North lives in a society that demands perfection. After she was branded Flawed by a morality court, Celestine's life has completely fractured--all her freedoms gone. Since Judge Crevan has declared her the number one threat to the public, she has been a ghost, on the run with Carrick--the only person she can trust. But Celestine has a secret--one that could bring the entire Flawed system crumbling to the ground. A secret that has already caused countless people to go missing. Judge Crevan is gaining the upper hand, and time is running out for Celestine. With tensions building, can she prove that to be human in itself is to be Flawed?

Customer Reviews

"In a world without empathy and compassion, there's nowhere to turn but to other Flawed people, a resistance of runners and revolutionaries, hoping to turn the tide of belief.

Ahern's previous adult books have all had a much lighter tone, so this series marks quite an interesting change of pace. Likely to bring up discussions of the current political climate and

laws, this novel will definitely make readers think."--Booklist

Pre-reading Thoughts: I absolutely loved the first book. I devoured it like no tomorrow. It was incredible and it was effective. I couldn't wait to jump into this book. Unfortunately as fate would have it, I had a tonne of other books and exams to do first. But here we are. I am about to start this book and I am super nervous. I am not sure what to expect from it besides that it will be great. Here's to hoping that this will also blow me away. Thank you so much to Jonathan Ball Publishers for sending me this book to review. I am so grateful! Just a small little disclaimer for those reading this. I received this book for free. No money from my pocket was spent in getting this book. Please note that in no way does this affect my opinion. All thoughts still remain my own.

Writing Thoughts: There wasn't much of a change in the writing style from the first book to this one, so if you would like to see my thoughts on the writing style be sure to read the review on the first book. Which can be found [here](#).

Plot Thoughts: The plot to this book was superb. I was addicted from the first page. The story sort of picks off right where we left off. With tensions running thick and the danger for Celestine still be high. I was sitting on the edge of my seat from the very beginning and even when the last page was gone, my shoulders still remained tense and a soft and mild sense of adrenaline was slowly pumping through my veins. I was additves to Celestine's story since the first book and to be honest I still want more. I want more moments where it can go either way. I want more scenes where Celestine does a complete one-eighty and surprises not only the characters but us, the readers, as well.

Character Thoughts: This book reconfirmed and strengthened the characteristics that were present in the characters in the first book. Celestine is still a strong and independent woman who has definite leadership skills. Carrick is still a strong yet understanding character who feels deeply. I hardly get as attached to characters as I am to these characters. I just want more and it breaks my heart that I won't be able to see more of them.

Final Thoughts: Overall, in the worlds of *A Magical World of Words*, I was blown away. I had my socks knocked off from the beginning. There is no other way for me to say that this book is amazing and perfect. I highly, highly recommend that you go out and buy this series because I can promise you that the moment you pick up the first book and read the first sentence, you won't be able to put the series down. Thank you so so so much to Jonathan Ball Publishers for providing me with a copy of this book. Yours in

Perfect is the sequel to Flawed by Cecelia Ahern, and it was beautiful. Ahern keeps up the fast paced nature of the first book along with heart-rending moments that remind us of historical moments of the worst of humankind. Our heroine, Celestine, is on the run, hiding from the Whistleblowers as a Flawed evader, her grandfather arrested, her parents under watch, with no one she can trust around her. More betrayals occur in this book than I can even fathom, nice people turn out to be ruthless, and even the people she trusts most have agendas. Even though she doesn't want to be, Celestine is still the poster girl for change and for Flawed rights. The Vital party is using her words to advance their mission, and while she agrees with what they say they want, her fear of betrayal makes her hesitant to trust that Enya Sleepwell will continue on a path that helps the Flawed once she receives power, because so far everyone with power has let her down. The brightest spots in her life, even though you barely see them in this book, are her family. Her parents unwavering love to do whatever they need to, to try to bring everything that happened to light and save their daughter, her sister Juniper is willing to risk her own life to protect her. Their family bonds are so much stronger than any Flawed label or government order can break. Without the people that unwaveringly love her, I don't think this dystopic duology would have been able to have any happiness. Read these books. Think hard on what it discusses and brings to light. The themes in this are so important.

I couldn't wait for this follow-up. Flawed was such an interesting and exciting story. None like I have ever read. I cannot believe that this was a YA book. I was immediately hooked when I saw the cover. Now after reading these first 6 chapters (of Perfect), I am ready to know how this will all end. Such a powerful introduction too. I have questions. Will Crevan be brought down? Will Celestine be vindicated? Will the Guild's reign come to an end? I want more details on Carrick as well. Although you are given a few details into what occurred in Flawed, I strongly suggest reading it prior to reading Perfect. Okay then. Enough said. I must get the complete book now and find out what happens. I am hooked.

I feel the two books should have been one That would have avoided the awkward repetition of facts in #2. I really enjoyed the concept of the acceptability of many Flaws in #1, but found the concept did not progress in #2 but sank into a miasma of a unrealistic behaviour of powerful people. Also realised the books were for Young Adults so probably I was not the right audience.

Perfect is a "perfect" continuation of the storyline and characters introduced in Flawed. I truly love both Flawed and Perfect and everything they represent. There is a lot of character development of both Celestine and Carrick. In Perfect, Celestine grows as a person and a leader. There are several Celestine and Carrick moments where they become more than just friends. :) Celestine's tape of Crevan gives her power and a plan. Celestine stands up for herself and the entire flawed community. Perfect is a must-read that sums up a perfectly flawed story in a wonderful way.

What a wonderful story Cecilia Ahern crafted! There was, perhaps, a bit too much repetition of things from the first book. Then again not everyone will have read both books back to back in a 36-hour period. Still I was riveted and enjoyed every page.

Overall a good sequel to the first book. Book ended as expected, so no surprises. This is a good book to pass the time in the air and with no expectations of having to pay attention. Enjoy!

The heroine in this duet quickly needs to use her intelligence and instincts when her world drastically changes from perfect to a state sanctioned flawed horror punishing her for a humane action.
