How To Approach Women: Fearless Approach, Approach Women And Life With Unstoppable Confidence (how To Get A Girl)

Synopsis

Discover how to annihilate your fear of approaching Women and start living the life you deserve. How many more times can you see that beautiful girl only a few feet away from you and not say a word to her? She's absolutely gorgeous and you know without a doubt that you would love to have her in your life. Feel her body pressed against yours. Tell your friends about her. Walk into a party with her on your arm. She's right there, and all you have to do is introduce yourself. But something goes terribly wrong. You completely freeze up. Paralyzed. Just the thought of talking to her makes your heart start to pound out of your chest. Your throat squeezes like a vice. You get a sick feeling in your stomach. Then a burning sensation rising up from your gut and you start sweating bullets. Right away you get in your head and start making excuses about why you can't approach her. "She probably has a boyfriend." "What do I say?" "If I get rejected I'll look like a total loser, everyone will see it" and the list of excuses goes on and on... I decided to write this book to destroy every mental hang-up, fear, and myth you have that is holding you back from meeting girls in the real world and living the life you truly want. I can give any guy an "opening line" and tell him to introduce himself to girls, but he still won't do it. The reason is because of his mental hang ups. We are going to destroy those hang ups so that you can have full confidence to build the same habit that I did. I want to get you as comfortable with the idea of meeting Women as it is for me. If you follow my advice it will become easy for you too. Here Is A Preview Of What You'll Learn... How to overcome the most persistent excuses your brain comes up with so you can blast out of your comfort zone and get the Girl you choose. The best and most effective ways to meet Women so you can succeed quickly and build your confidence and self esteem. Never before seen and detailed breakdown of exactly how rejection works and why Women reject us, so you can water down your fear to the point that you won't even taste it all that and much more... What is the #1 biggest problem that men have when it comes to women? Universally, the #1 biggest problem is actually APPROACHING and TALKING TO the girl of their dreams! Most men are simply too scared to even WALK UP TO the girl of their dreams when they see her! And even if they DO have the courage to do it, the conversation usually languishes afterwards. Luckily, Joe Ducard has come to the rescue with a fast-paced, highly-entertaining, and completely invaluable book that SOLVES THIS VERY PROBLEM! I loved reading every page of this book, and I feel like a new man as a result of it.

I have read a lot of books on meeting women, because let's face it, who wants to be single? A lot of these books are absolute nonsense. Very clearly untested and unproven theories littered with buzzwords and jargon that make you ask yourself "Am I trying to meet girls or am I joining a cult?"It is refreshing to read a book that just cuts right through BS and gets to the heart of the matter. Clear, simple, well written and inspiring. You can tell Joe has not only spent time thinking about the subject but actually learned from REAL WORLD EXPERIENCE. It is rare to find something so easy to read that is so helpful. The only thing I wish is I could have given it 6 stars. If I find the right one based on this book I'm inviting Joe to come to my wedding as the best man!

Amazing! I have read dozens of books on this subject and most of them are written by people who appear to just be trying to sell me something and are questionable if they have ever even talked to a girl. From the first page I knew this guy knew what he was talking about. Only someone who has done it to a high level has the kind of insights that are contained in this book. I have been very slack lately and let me fear get the best of me, I have also always struggled with anxiety and low self esteem. Reading this book has given me the biggest kick in the ass and boost of confidence and inspiration to start living the life of my dreams and going after what I want. If I could give it 10 stars I would. This is def the best book ive ever read on the subject of overcoming my fear of approaching women.

Most "dating advice" is a bunch of crap but Joe Ducard is legit. I've been following him for a while now and he made an inspiring transformation himself. He wasn't a good looking guy or a "natural" when he started and he became a very highly regarded instructor in the dating community. This book is a must read if you want to meet and approach more women and really just overcome any fear that is holding you back in your life in general. This is the type of book every guy should read. Over and over again.

I'm always suspicious of books claiming to give advice about how to remove fear from our daily life but this book really delivers. The advice is incredibly practical. You can tell the author has really been through this stuff himself and is giving advice that actually worked for him. Even though it's written from a dating perspective, this stuff is super helpful for business and any relationships. I had 2 of my other team members read it too -- it's 86 pages so literally takes an hour or two -- and they both came away with some golden nuggets.

This book is fantastic! It is an easy-to-read intro to having the right mentality not only for building a romantic life with women, but self-improvement in general. It is full of colourful anecdotes. Joe Ducard comes across as a real person who struggled earlier in life, but overcame it in a massive way. It is a very honest overview of his life and his work and mission. I would imagine his in-person coaching is even more powerful. I particularly like his concept of approach reluctance and how he deals with it. This book gets full marks!

Every guy should read this book, especially if you have any hesitation or reservations about approaching women. Reading this book has taught me so much about the mindset and strategies

that I should use while meeting women. And, hey, I met a girl walking down the street downtown just yesterday as a result using Joe's strategies. i'm really pumped up now to get out there and start meeting women.

This book is a must read for any guy wanting to improve his dating life, and I think women might enjoy it too, as an insight into the male psyche. I found that so much of the content resonated with my own experience. I wish I had this book when I was younger. Thank you Joe
