I bought this back in 2013 and with the new release of *Sailor Moon Crystal* I brought these babies back out again! I forgot how beautiful they are, and how authentic they are! Of course back in 2013 they were more expensive than they are now, but honestly there is no difference. They came in a timely manner wrapped in plastic. I honestly might buy another set just for the sole purpose of collectors keepsake! I was 19 when I bought these and 21 now and still enjoy them just the same! They are read just like traditional manga, so no worries there!

I'm a first time Manga reader and I loved reading these! *Sailor Moon* was a childhood favorite of mine so I thought this would be a good place to start my Manga experience, I'm glad I did! The first

book even clues you in to how to read it (right to left instead of left to right). The pictures are quite nice and there's a section in the back that gives some cultural references and translation notes. Overall pretty cool.

Perfect! My collection of the original Tokyopop manga is almost finished! The covers of the first and last volumes are my favorites. Sailor Moon was my first manga ever....Thanks

This box set is better than I imagined. I've never read the manga before but used to watch the show. Love the stickers that came with it, the box itself is absolutely stunning! It's nice and sturdy with beautiful images and has little thumbnails of each cover. 10 stars! Can't wait to get the 7-12 box set

I am an 11-year old girl whose mom got this set! Their funny expressions and unique designs were awesome when I saw them and I appreciated the author's hard work! And I understand Tuxedo Mask was forced to find "The Legendary Silver Crystal". There's even Sailor Chibi Moon! I didn't even know she existed in the Sailor Moon series!

I only have a few volumes of the pocket book edition and for a while I had wanted to buy the whole series. Then I heard that Kodansha was translating the series so I decided to buy the box set. I like that each volume has a few color pages and it also came with stickers. Pro: A few color pages Bigger than the pocket book Cheaper than buying the volumes individual Con: It's harder to get the volumes out of the box and it's also harder to put them back in. Other than that, I really enjoy reading the first six volume.

So excited to read these for the first time! They were awesome and I highly recommend.

Very beautiful artwork, and the translations are great, too. For a non-Japanese speaker, I really appreciated the appendix in the back that explained some specific cultural nuances that I didn't quite understand. I do wish that they would mark these in the actual chapters so I didn't miss an appendix when it was relevant. The page numbers are off on some of the books, too, but that's not

a big deal to me.
