Customer Reviews

Money well spent.

The contents here are very thin, but it's the best on the market still, 17 years after publication. On one hike, I also found an erroneous page cross-reference. I wish for more, but am glad to have this rather than not. The book needs to be paired with proper trail maps by NatGeo / Trails Illustrated, or the locally published older trail maps by Plinth, Quoin & Cornice Associates.
