I've always wanted to run a DCMS campaign based in 3050, but never had a good frame of reference..(okay clans invade, Turtle Bay, Wolcott..I know) But this book opens many, many doorways with Vast, detailed information concerning everything from major personalities to unit background information and insignias. I recommend this book to Rpg and Tabletop players alike. This Feild manual sets the standards for Gaming resource material.

This book rocks!!! full of useful stuff from mrm 40 to wars this is a must for all people looking to

expand their battletech universe. you will not be disappointed
