More like 2.5 Stars This book was published in 1994. While the locations won't change, I would have preferred a more updated & better published book. The maps appear to be hand-drawn and a bit rough.

An excellent book. I lost my original and wanted to replace it. Shows places in Western New York and the Canadian Ontario peninsula of really cool places to visit.

Book in better condition than described. Thanks.

I love hiking and adventuring and this was the perfect book for spots!

GREAT

As a resident of Western New York I am familiar with most natural sites but this book reveals many I had never visited. Am looking forward to exploring all that I can.

Great book! Must have for WNYer

As this book is older there is room for improvement. Maps are drawings of the area not pictures of the official trail map on the site. But since the book is a bit older this is to be expected. I guess the book is discontinued to minimize the foot traffic on some of the more sensitive areas.
