Customer Reviews

I started out reading to one of the grandkids, a four-year old. She was captivated. It wasn't just the pictures, seeing a SuperHero that looks like her, but the story really engaged her also. She followed the comic much better than the story in a regular book with a picture per page. It was the amount of detail that went into each frame that enabled her to follow the story so easily.

The Moon Girl comics is the first series that started my comic book collection. Awesome books depicting a strong, young, African American, and smart lead character. I love them and everyone in

my house.

this is a good series especially for kids since there are no overly sexualized characters I hope it continues that way.

Must read comic book for both adults and kids.

great book

My son loves Moon Girl. Moon Girl is a great character. She empowers kids. It's a celebration of her ingenuity and intelligence while also being exciting and funny. It's also beautiful. Love it.

I don't read a lot of Marvel comics, but when I saw that a nine year old girl was paired with a giant, red T-Rex, I had my hopes up. Thankfully, I wasn't disappointed.

I love it, this comic is so cute. The art is fantastic and the story a nice break from the more popular comics
