Customer Reviews

Donald P. Ridgway, RVT: Don Ridgway is a practicing vascular technologist and an instructor in the vascular technology program at Grossmont College in California, where he was responsible for seeing that program become the first vascular technology curriculum to receive American Medical Association accreditation. Don brings teaching skills from several different disciplines and areas of experience: He has taught writing and fencing (swords, not chain-link) at San Diego University, and

for ten years he played and taught bluegrass banjo, mandolin, guitar, and Dobro. He still gets to pick occasionally when he is not on call, lecturing, or grading quizzes. Barton A. Bean, RVT: Barton Bean, founding president of the Society of Vascular Technology and seminal figure in the history of the field, is editor emeritus of the highly acclaimed ARDMS registry mock examination, Vascular Technology Review. Bart lectures and consults peers and students of the vascular field throughout the country. Cindy A. Owen, RT, RVT, RDMS, FSDMS: Cindy Owen is the author of Ultrasound Physics Review, ScoreCards for Vascular Technology, and Abdominal Sonography Review. A former ARDMS and ICAVL board member, Cindy is currently Research Manager for Global Ultrasound at GE Healthcare and Director of Clinical Insights and Development at GE Healthcare Point of Care Ultrasound. D.E. Strandness, Jr., MD: Dr. Strandness pioneered the development of duplex ultrasonography, served as Professor and Chair of the Department of Vascular Surgery at the University of Washington, lectured throughout the world, and authored dozens of major books and hundreds of original articles before his recent death.

I used this in conjunction with the text by Davies and passed my RVT on the first try. I highly recommend this product. Being able to take mock exams on the CD and also have the choice to use the exam in Learn Mode (to see the answer and read explanations as to why that answer is the correct one) was an immeasurable resource for me. You won't be sorry if you buy this product as a study tool. It's expensive, but well worth it when you think of all the time and money you will save by passing the exam on your first try!

The attempted installation of this item was after the Return Deadline for this item, as it was a gift. The CD is defective! It won't Install. Should I be expected to install software on MY computer to confirm it works before I give it as a gift? That's not even legal! Not a good return policy.

What I love about this CD is that you can just study by answering the questions and it will explain the answer or you can take a test and see how well you did then you will know the area that you need to study more. It also tells you the percentage of each area that it on the registry.

JUST PASSED A PRE-REG EXAM TODAY :) GREAT TESTING ASPECT. IT IS VERY HELPFUL THAT THE ANSWERS ARE RIGHT THERE TO EXPLAIN YOUR WRONG ONE. SAVES A LOT OF TIME LOOKING THEM UP.

This review helped me out a lot. The questions on the actual exam favor the questions on the cd. Plus it helps you to prepare to sit in front of a computer for a couple of hours. I failed the exam before but after purchasing this cd I passed!

great review - it has helped immensely with my studies!! I'll buy it for each test from now on.....

Just passed the RVT exam. This Vascular CD helped a lot.

I used as study aid and then tested for several days. I had no trouble with Vascular exam. I have used the Davies Mock Exams for all my exams and passed on first try.
