# Grade 1 Geography: Discovery For Kids: Flags Of The World Grade One (Children's Cultural Studies Books)

## Synopsis

Wow! Geography just got a whole lot interesting with amazing concepts outlined to make learning fun. The idea is to get a child used to the different parts of the world by going on an imaginary adventure. Famous landmarks are included, as well as some basic information per country. Don't be surprised if you'll be bombarded with questions on foreign places and cultures!

minutes (22-32 pages) > Science & Math

## Customer Reviews

More of the same from Speedy Publishing. This time I cannot fault their use of English or editing because there really is nothing written in the book. It is a book of flags of some countries and a blank one on the other page. It is a non book in my opinion. Calling it a geography book is a real stretch of the imagination. Kids want information, not pictures of flags. My kids looked at me like I was crazy when I asked them to look at this book. My kids are unusual in that they learned to read while other kids were in preschool, so they are very advanced in their reading and education. I do not see the value in this book. I received this product at a discount or free in exchange for an honest and unbiased review of the product based upon my own personal experience. I have not been coached

or asked to provide positive feedback,nor have I received any compensation or incentive from the company for this review. I am disclosing this inaccordance with the Federal Trade Commission 16 CFR part 255 "guides concerning the use of endorsementsand testimonials in advertising". I am not affiliated with this company or any of their products in any way. Theviews expressed here are my own, based on my personal use and experience with the product, and are unbiasedand honest reviews. Any feedback, positive or negative, regarding this product is based on my personal experiencewith the product. I treat each product review as though I paid full price for it. I rely heavily on product reviews whendeciding to purchase an item from a particular manufacturer or company.

Quality: GoodValue: Great (free Kindle edition--you can't go wrong)Pros: Simple and colorfulCons: Very basic book of flags, not sure how that is considered geographyWell, I thought this would be a basic geography book--maybe a map would be involved--but as I looked at the title again, I saw that it just said "Flags of the World." That's what it is. Flags from, and I quote, "the fourteen richest countries in the world." So here's what you get: A color version of the flag and a black and white version of the flag (obviously meant to be colored in the print edition of the book). The following countries are included: China, USA, India, Japan, Germany, Russia, Brazil, Indonesia, UK, France, Mexico, Italy, South Korea, Saudi Arabia.This is a cute little book for a flag-loving little kid, and it would be fine for a class discussion of different countries' flags. The cover and title are somewhat misleading; you'd almost think it was some sort of workbook or that it would least have some reading other than just the countries' names. I would think this would be appropriate for even younger kids, because they tend to memorize books when they're this basic. That would allow them to "read" to you and feel like a big kid.I can't imagine investing in the print edition of this book unless it was for a completely flag-obsessed kid who would love also coloring their own version. Otherwise, it would be quite an expense for just another coloring book.I thought this book looked interesting, but it did not have the information I was hoping it would have. It does contain what it promises, though: flags. I hope this review was helpful to you.

Are you traveling on a flight with your kid and need to entertain them with cool stuff other than movies? Download this onto your kindle and let your kiddo(s) explore while on a flight. Super cool!Disclaimer - I received this ebook for free in exchange for my honest, unbiased, and fair review. In no way has this influenced my review. I rely on reviews just as much as you do and detest fake five star reviews. I very much appreciate reviewers who take the time to provide their honest and unbiased reviews and, for that, I am extremely grateful to them.When I need or would like particular

products, I take the time to research those products as I do quite a lot of online shopping. I also take the time to test every product, whether received for free, at a discount, or for full sale price, to find out if the item holds true to its claim. If you found my review to be helpful in any way, then I trust that I have provided the necessary details to make your buying decision an informative and positive one. Should you have any questions, please feel free to ask away and hopefully I can provide an answer. Thank you for taking the time to read my review; it is very much appreciated
