Conspiracy Of Credit

Synopsis

Conspiracy of Credit is a must read. Containing the most raw and comprehensive information you will ever find on credit, this book provides shocking answers to the questions of why the credit bureaus want you to have bad credit and why credit is assumedly for poor people. Conspiracy of Credit explains why identity theft is nothing more than a new product created by the credit bureaus and banks to make money. Further, this book tactfully breaks down the reason behind retail and grocery store loyalty cards as well as the use of re-identification software. The speed of light money age is here, and never before has any book provided a blueprint for the future of

Customer Reviews

Corey P. Smith is a noted author and credit awareness expert who has used the lessons learned from his unforgettable life experiences to position him as one of the nation's foremost trailblazers in his arena. He is widely known as a credible, highly knowledgeable and invaluable resource. Smith is the author of How to Outsmart the Credit Bureaus and his latest release, The Conspiracy of Credit. He is also author of the documentary, "Credit is for Poor People." A native of Memphis, Tennessee, Smith graduated from Tennessee State University with a Bachelor's degree in Sociology. He is a former high school History teacher, corrections officer and Navy veteran. After finding himself living in an unfurnished apartment (that was not in his name) that had no electrical power, he realized a change must come in his life. This realization was the catalyst that led him on a quest that ultimately equipped him to effectively promote social economic awareness. Today, Smith dedicates his time to providing credit

awareness and educational empowerment by sharing his expertise with as many audiences as he can. The difference between him and other financial advisors is this, "I simply provide people with information they can use rather than offer them a solution to the problem that just may or may not work for them. Knowledge is power, and I am pleased to share knowledge that has been tested and tried." For more information on Corey P. Smith, visit him online at www.conspiracyofcredit.com

I think this a well written book I bought it after a the author did a radio show on underground radio I'll admit initially I had my concerns about whether or not to purchase the book based on just the sound of the authors voice but I'm glad I went ahead with the purchase the author plays the game really well and after reading the book I can understand why he does what he does, my only gripe really if you want to call it that is that I wish he would have left more references like recommended reads for people who would like to follow through and learn more about "playing the game"

This was a well documented book on how the credit bureau's operate. I finished reading the book in a day, my wife took 2 hours. out of all the techniques I've learned to clean up my credit his way is pretty simple. And he only gives you a couple of ways to fight back, which is more than enough.

This book is great. It will open your eyes and show you how not to be part of the debt problem for you. Thanks very much

High recommended for anyone seriously concerned about wealth building. This book is only the beginning, but it's very necessary.

Great breakdown of the credit institutions and how to use debt as leverage. Must read if you want to be financially liberated

a nice read

I would highly recommend this book for newbies to the credit world. It's affordable and enough information to continue your research

The best part of the book is the affidavits in the back. I'm still waiting to see how those will work. But

challenging the credit companies has allowed my credit score to go up at least 50 points. That alone made the book worth it.
