Customer Reviews

I decided to not go with South Beach diet right now, but the book is really informative and helpful.

Efficient and effective. The narration was also good. No trimms and unnecessary detail. Good summary of the diet. Best if you are already familiar with the why of this diet.

Such great recipes, makes you glad you are doing the diet; even my nay sayer husband digs the food.

After reading this book I am sure that a paleo diet is good for me. This book has a range of recipes that I am excited to use and it is easy to follow which is great for an amateur cook like me. Nice read.

This book was a total rip off. DO NOT waste your money. Buy the original South Beach cookbooks and you will get the same info plus so much more!

I liked the foods presented in the book. At least part of it is consistent with other diets recommendations, try it.

Only wish there were more recipes

This short book gives you some delicious and healthy south beach recipes and also the instructions are very detailed. The book does not provide TOC which makes it difficult to go through the book. The book helps you understand the concept of CARBS and will teach you how to cut the proportions and the carbs. The book has been divided into three phases and has discussed each recipe in detail. I like the Asian Turkey Meatballs in Lettuce Cups. The book is easy to follow and the book itself is very easy to read.
