Oil Painting Portraits (DK Art School)

Synopsis

Unlike most other how-to art books, the precise focus of this series's tuition benefits both the beginner and those with more experience. Each book takes the aspiring artist through a series of projects based on a specific medium or a favourite subject of their choice. This book focuses on oil painting, specifically portrait painting, taking readers through all the steps in creating a successful portrait, from brushes and supports, transferring an image, and getting a likeness, to a self portrait study, a group portrait and finally a gallery of modern examples. --This text refers to an out of print or unavailable edition of this title.

"...deliciously illustrated step-by-step instructional guides." -- New York Times --This text refers to an out of print or unavailable edition of this title.

good little book to pour over longingly and wallow in the joy that is art making. Though not the greatest, its a good basic start and for the old dog painters like me ...its a bit of a refresher for all that stuff you forgot, or down right didn't bother to listen to from college.

Great book, just as advertised!

Best art book series out there.

This book focuses in well on different aspects and teaches you new techniques in easy to follow instructions.
