## Customer Reviews

A lot of thought went into the characters; a great story overall, my only problem is how small the team that went up against Thanos was and how little time was given to some of them.

The first comic I ever bought. I can now keep my original safely stored away and read this digital version any time I want.

Great way to learn about the upcoming movies, easy plot to follow and great story, worth the time to spend reading it.

This is a great story! I remember reading it almost twenty-three years ago. I purchased it for my son so that he could read the story. Marvel has done a brilliant job of bring this to life. Maybe Marvel could do the Brood next. Another great storyline, kinda like Alien.

Overall this is a excellent comic series. It's all about thanos who gains greater than a God's power's

when wearing the all mighty infinity gauntlet. Thanos isn't the a very handsome man, but with the infinity gauntlet he does what he can to win the heart of lady death by killing billions across the galaxies in an instant. This doesn't work so he is filled with great rage causing even more tragedies. Adam Warlock builds an army of heroes and villains to stop this never ending madness creating a great epic battle. I recommend this comic book to any comic book nerd like me or any one who would like to learn a little more about the marvel universe. Also one more thing, the price is perfect and cheap for such a good comic.

Like so many comics i bought back 21 years ago, i only got the first in a series and that was it. I finally got the whole series and i'm glad i did. Thanos the mad titan has gotten his hands on the 6 infinity stones and has unimaginable power. The power of a god. A it's going to take the strength of the remaining heroes to stop him. the writing and art work are outstanding. I didn't quite like the way it ended but it's still worth the read.

Great story and great introduction to Marvel characters. If you're like me and haven't read every issue of every Marvel hero's solo series, you'll be happy to know this story allows you great introductions. Even better is that these are characters that were mostly on the periphery of the Marvel Universe (Silver Surfer, Dr. Strange, Thanos.) Now, they're in the spotlight.

Great, weird story, with some fantastic artwork.
