Customer Reviews

Prior to buying this book, I had earlier bought a piano score of "Who Am I" from praise-charts, and it was excellent. But the arrangements in this book don't sound like the stuff I heard on the CD, and the score keeps following the melody like a hymn with the chords beneath. Certainly not what I expected. I might as well just play the chords; only the intros sound true to type.

Only downside is that the arrangements are so spread over many pages that while learning I am flipping pages madly. The format could have tried to condense the material for less page turns IMHO.

Great Christian Music

I play keyboard for a church's worship team and most of the stuff we do we can get by with just playing a song by its chords. But every once in a while there are songs that make specific use of

piano embellishments. Casting Crowns has quite a few of this kind, so buying an easy piano version like this helps incorporate those elements into our church's worship. They aren't really necessary, but they definitely add a nice touch to the music.
