Customer Reviews

Actually pocket sized (and I'm a girl so my pockets are small). This was a super helpful guide while I was visiting San Francisco for the first time for a conference. The guide is split by neighborhood. The map was kind of pointless considering I have a smartphone. But the food recommendations were super helpful when my group was indecisive.

guide books are guide books, but this one has the best map of Athens. I was able to mark everywhere I wanted to go on the paper map that folded up anyway I wanted it to!

Great fast service. Love all the ideas on sites to see & its small enough to take with me.

great information & what I needed

This review is for the Kindle version. Nice book if you are traveling to Athens. This book is full of pictures, maps, instructions, recommendations for places to see and internal links to various sites on the internet and Google maps of the locations. You would need to have wifi or a data plan to use it internationally, but it is a great book. Happy to have it and it's recommendations with me when I'm traveling.

It was not as organized as some other travel books. We relied on others like Fodors . This was a tiny book so easy to carry however - we didn't carry it.

Good information. Very useful.

So useful. Loved this
