Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I'm new to the mandolin and love the concept. Brought to my teacher and even he had a little trouble following along in the book... My teacher had not seen this series and was delighted. That said, if you love these tunes, I'd recommend the book. Not for a beginner, but certainly worth learning.

Not Easy, and I've been playing and reading tab for a year.

This is a good book to help beginners keep looking ahead - especially if you're self taught. Both regular music and tabs included. Might be better with a cd.

The book is listed as easy. I'm a beginner and will have to grow into it. I didn't realize there was a difference.

Just the book I was looking for!

Good music but I would not consider this "easy" mandolin

The songs are fun, and easy. it does NOT, as stated, have all the music in TAB. The intros, and some other harder parts are in tab, the rest is sheet music. The sheet music however, is generally single note melodies, and easy to negotiate

You'll notice out of the rock songs that were written with mandolin, none of them are here and that's cool. I used this to learn how to play several songs (like Stairway To Heaven) and it'll get you going. What it's not going to do is teach you the guitar parts on mandolin note for note, but you'll be able to fake it somewhat.
