Connect Access Card For Anatomy & Physiology

Synopsis

Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that your class time is more engaging and effective.

Book Information

Printed Access Code

Publisher: McGraw-Hill Education; 2 edition (March 24, 2015)

Language: English

ISBN-10: 1259133001

ISBN-13: 978-1259133008

Product Dimensions: 7.2 x 6 x 0.3 inches

Shipping Weight: 0.6 ounces (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars 8 customer reviews

Best Sellers Rank: #24,859 in Books (See Top 100 in Books) #126 in Books > Textbooks > Science & Mathematics > Biology & Life Sciences > Anatomy & Physiology #168 in Books > Science & Math > Biological Sciences > Anatomy

Customer Reviews

Valerie Dean O'laughlin received her undergraduate degree from the College of William and Mary, and her PhD in biological anthropology from Indiana University. She is an Associate Professor of Anatomy at Indiana University School of Medicine, where she teaches human gross anatomy to medical students, basic human anatomy to undergraduates, and human anatomy for medical imaging evaluation to undergraduate and graduate students. She also teaches a pedagogical methods course and mentors MS and PhD students pursuing anatomy education research. She is active in the American Association of Anatomists (AAA) and the Society for Ultrasound in Medical Education (SUSME). She currently is serving as President of the Human Anatomy and Physiology Society (HAPS). She received the AAA Basmajian Award for excellence in teaching gross anatomy and outstanding accomplishments in scholarship in education. Valerie is coauthor of the McKinley/O'laughlin/Bidle: Anatomy & Physiology: An Integrative Approach textbook. Michael P. McKinley received his undergraduate degree from the University of California, and both MS and PhD degrees from Arizona State University. In 1978, he accepted a postdoctoral fellowship at the University of California at San Francisco (UCSF) Medical School in the laboratory of Dr. Stanley Prusiner, where he worked for 12 years investigating prions and prion-diseases. In

1980, he became a member of the anatomy faculty at the UCSF Medical School, where he taught medical histology for 10 years while continuing to do research on prions. During this time, he was an author or co-author of more than 80 scientific papers. Michael was a member of the biology faculty at Glendale Community College from 1991 to 2012, where he taught undergraduate anatomy and physiology, general biology, and genetics. Between 1991 and 2000, he also participated in Alzheimer disease research and served as director of the Brain Donation Program at the Sun Health Research Institute, as well as teaching developmental biology and human genetics at Arizona State University, West. His vast experience in histology, neuroanatomy, and cell biology greatly shaped the related content in Human Anatomy. He retired from active teaching in 2012 and continues to be an active member of the Human Anatomy and Physiology Society (HAPS). Michael is coauthor of the McKinley/Louughlin/Bidle: Anatomy & Physiology: An Integrative Approach textbook. He resides in Tempe, AZ, with his wife Jan.

Awesome online resources with this book! You can do dissections and peel away layers and see exactly what you want. The book also helps direct you and find things you need instead of wasting valuable study time just searching for answers aimlessly in a textbook.

Really appreciate the cost of the access card. I am getting an A in the course as your getting it to me so quickly., Thanks

Once again books helped me save on this I saved \$92

Good product!

This code helped me be on track with my anatomy and physiology class in college. Very reliable.

College books and accessories are always way overpriced and there isn't a good return on the investment when one sells them back (if that is an option).

Was prefect!

Does not work on Android devices at all.
