Bad credit can prevent you from getting a mortgage, car loan, credit card, apartment, or even a job. It can also mean paying a bundle more (in rates and fees) for any loans or credit you do get. Use this comprehensive how-to manual to rebuild bad credit and protect and improve good credit. Learn how to: fix errors in your credit report (1 out of 5 credit reports contain errors), choose the best credit repair strategy for your situation, avoid overspending, establish a realistic budget, negotiate with creditors to reduce debts, add positive information to your credit report, avoid identity theft and credit scams, and more.

The information contained in this book is invaluable for those looking to understand their credit and how the system works. What I particularly like is the ease of reading and the way the chapters are conveniently laid out in a way as to move easily through the book and find exactly what you're looking for. Where it really shines is the chapters on repairing your credit and dealing with unscrupulous bill collectors. I highly recommend this for book for anyone looking to learn about how to responsibly use credit and for those looking to repair their credit and deal with bill collectors. Nolo makes the best legal layman guides you'll ever read.

A good read. Haven't finished due to my crazy schedule but it has good information

Very little information on all teh various types of disputing credit errors and mosr of the book is about managing your debt which is VERY misleading. I am very disappointed:(

Very Good I recommend !!!!!

Great book. Thanks for being a good seller!

You can't go wrong with any of the Nolo books.
