Moon Crossed (Sky Brooks World: Ethan Book 1)

Synopsis

Pack life is dangerous on an ordinary day. But now the vampires have broken a tentative truce, and a young lone wolf is at the heart of a secret scheme to shift the balance of supernatural power forever. Ethan is the Beta of the most powerful pack in the country, the Midwest Pack. He must keep those he cares for safe. Skylar barely understands what she is, and her introduction to the supernatural world is terrifying. In her eyes, werewolves are no different than the vampires who killed her mother. As the vampires' efforts to capture her grow bolder, she reluctantly accepts the Midwest Pack's assistance. Ethan soon discovers Skylar is more than she seems: a werewolf who can wield magic in previously unknown and dangerous ways. The list of Skylar's enemies grows, and some in the pack want to kill her to prevent a larger catastrophe. Will Ethan risk the lives of his brother and packmates to protect a woman he doesn't know? Ethan will kill Skylar if necessary, but first, he will do everything in his power to save her. Moon Crossed is Ethan's story of Moon Tortured (Sky Brooks, Book 1). New scenes have been added. Reading Moon Tortured is recommended, but not required.

Customer Reviews

First I really enjoy the Sky Brooks series and I couldn't wait to read this book. I hoped I would like it but I didn't expect to love it. I don't always enjoy books rewritten in another characters perspective. But this worked. If anything, I liked it more. This is nothing against McKenzie Hunter and her writing. The first book is great the way it is. It's the way its supposed to be. Sky still makes dumb choice after dumb choice, that doesn't change, but we dont have to listen to her rationalize it all. Here we hear everything from Ethan's side. I haven't liked him much throughout the series. He's the strong handsome hero. But he's also an arrogant ass too. This book I think humanizes him more. I understand him better and actually kinda like him. To someone who hasn't read the series, I dont think this is where to start. I would start read the series first then this one. While nothing "new" happened here, I'm not sure it would be entirely clear to someone unversed in the world. This is labeled as book 1. I look forward to more books in the future.

Really enjoyed this book. It is always fun to get a guys perspective in a story. Emerson stayed true to my perception of Ethen based on Sky's series books by Mckenize Hunter. In future books it would be interesting to in read about side missions and pack business Ethan deals with outside of the Sky story, some of the good and dark side of back business. Similar to what was done in the first chapter of this book.

I like love these stories as they are well written and move me through their world at a good pace while keeping my attention the whole time. I really like that we are starting the journey again through Ethan's POV! Awesome

Very good job on the details following along the original books... Finally seeing Ethans point of view was interesting. This book definitely clears up some of the grey areas. Cannot wait for the next one!

Reading Ethan book 1 I was reading word for word from the other book I have read, thought I would get his story about himself and a little of what happened with Skyler. I could tell what was coming next. I was very disappointed.

Loved it. Can't wait till the others come out

I was so excited for this and it absolutely DID NOT disappoint. I love seeing Ethans side of the

series and holy smokes it's brilliant. What an absolutely amazing idea to have a series that has two POV but different books. I can't wait to keep reading Ethans POV. It's explains so much and also leaves me incredibly curious as to the next few books.

Knowing Ethan's side of things was very eye opening but I didn't connect with him as well as I did with Skylar. His wolf makes him harder to understand his violence, anger, and nonchalance. How he can feel empathy yet have very little problems killing an innocent is beyond me. Some things in the story duplicated what occurred in Skylar's POV so I was able to speed read those discussions. I found both sides interesting especially since Skylar didn't get to be privy to a lot of the pack discussions. So it was worth the time.
