No instructions or teaching, very thin paper. If you write in pen it shows through the other side.

Would not buy again

My daughter and I use this to clarify complicated grammar problems in Honors English.

Very disappointed in both the workbook and corresponding text. Not written to guide a learning student through the materiel.

Good complement to the textbook. My daughter is in high school and struggling with the quick pace of the grammar work so this book gives her additional reinforcement of concepts taught in the classroom.

Great

Pretty timely shipping. The workbook is in perfect condition. I'm pretty satisfied with the content. We bought it to go with the textbook. Our son needs some extra grammar help (We homeschool him) So we are looking forward to using this and the textbook to help him maximize his understanding of the English language. He's more of a math mind, so he has trouble in that area!
