Euclides, a civil engineer turned journalist, occupies a unique niche in Brazilian letters. These essays, written after a 1905 trip, though they deal with topics like the hydrology, climate, and haphazard settlement of the , and the impossible lives of the rubber-tappers, contain passages that read like the letters of a brilliant friend. Their intricate sentences are animated by a tragic lyricism befitting the author, who was destined to be killed by his wife's young lover soon after he wrote these essays. Even specks of the unconscious racism here, if impolitic, can have redeeming charm (as when Euclides says of the Tacunas, dwellers on the upper Purus River, that they are "born looking old"). These haunting *ÃfÃ©tudes* reveal a man who saw the as a place where violence and cruelty are as inevitable as the tropic sun. This is a fundamental book for anyone interested in Brazilian history and the . And, Euclides is one of the best writers not only in Brazil but globally, in my opinion. If you can't read the original in

Portuguese, it's great to have a translation like this.
