Customer Reviews

We purchase this every year as we are basketball card collectors. The guide does not include many sets it used to, the type is very small, but it's really the only guide available. Could stand some improvements

In the end, just a price guide. Not much here for a collector that wants to learn more about the sets, etc. They won't even spare a small description of the set because there are so many that need to be listed. This is for the guy that still thinks he is going to get rich off sports cards 27 years after the collapse of the sports card pyramid scheme.

If you collect cards you need this book.
