Jerusalem 1:10,000 & Holy Land 1:225,000 Travel Map, Waterproof ITMB

Synopsis

A double sided map on a light, waterproof and tear-resistant paper. On one side is coverage of Jerusalem: the city with its outer districts is shown on an indexed plan at 1:10,000. Main traffic routes are highlighted and locations of petrol stations and car parks are marked. The Jerusalem light rail route is shown with stops. The plan highlights numerous places of interest and facilities, including selected hotels, embassies, museums and other cultural or educational institutions, places of worship, Israeli governmental buildings, etc. Accompanying the main plan is a large, very clear enlargement at 1:4,000 showing the Old City in greater detail, including the Stations of the Cross on Via Dolorosa. Also provided is a diagram of the existing and proposed light rail lines, plus a road map of the city's environs, including Bethlehem and Jericho, indicating the course of the Separation Barrier. The reverse side is covered by an indexed road map of northern Israel at 1:225,000, extending to Rahat and the southern boundary of the West Bank. The map has altitude colouring to show the topography, including the depression along the Jordan and the Dead Sea. National parks and other protected areas are marked. Road network indicates driving distances on main and selected secondary routes. Railway lines marked, with a separate diagram of the network, and local airports are also shown. Symbols mark various places of interest including campsites and youth hostels, archaeological sites, etc. Latitude and longitude lines are drawn at intervals of 10'. On both the plan and the map, all place names are shown only in Latin alphabet. Within Jerusalem's Old City sites of religious importance are given their alternative names.
