Avenue Of Spies: A True Story Of Terror, Espionage, And One American Family's Heroic Resistance In Nazi-Occupied Paris

Synopsis

The best-selling author of *The Liberator* brings to life the incredible true story of an American doctor in Paris, and his heroic espionage efforts during World War II. The leafy Avenue Foch, one of the most exclusive residential streets in Nazi-occupied France, was Paris's hotbed of daring spies, murderous secret police, amoral informers, and Vichy collaborators. So when American physician Sumner Jackson, who lived with his wife and young son Phillip at Number 11, found himself drawn into the Liberation network of the French resistance, he knew the stakes were impossibly high. Just down the road at Number 31 was the "mad sadist" Theodor Dannecker, an Eichmann protégé charged with deporting French Jews to concentration camps. And Number 84 housed the Parisian headquarters of the Gestapo, run by the most effective spy hunter in Nazi Germany. From his office at the American Hospital, itself an epicenter of Allied and Axis intrigue, Jackson smuggled fallen Allied fighter pilots safely out of France, a job complicated by the hospital director's close ties to collaborationist Vichy. After witnessing the brutal round-up of his Jewish friends, Jackson invited Liberation to officially operate out of his home at Number 11--but the noose soon began to tighten. When his secret life was discovered by his Nazi neighbors, he and his family were forced to undertake a journey into the dark heart of the war-torn continent from which there was little chance of return. Drawing upon a wealth of primary source material and extensive interviews with Phillip Jackson, Alex Kershaw recreates the City of Light during its darkest days. The untold story of the Jackson family anchors the suspenseful narrative, and Kershaw dazzles readers with the vivid immediacy of the best spy thrillers. Awash with the tense atmosphere of World War II's Europe, *Avenue of Spies* introduces us to the brave doctor who risked everything to defy Hitler. From the Hardcover edition.

Customer Reviews

New York Times Bestseller"Rich in atmosphere and noirish effects, Kershaw's story centers on the harrowing experience of American-born doctor Sumner Jackson and his family, who undertook dangerous work for the French Resistance." •Boston Globe"From the opening pages, when Kershaw...drops us into the invasion of Paris, we know that we are in good hands. This is classic narrative nonfiction, constructed and written like a thriller." •Chicago Tribune"It's the least surprising thing in the world to discover that historian Alex Kershaw's latest book, *Avenue of Spies*, has already been optioned for development with Sony Pictures TV. Its circumstances — an American family in Paris aiding the French resistance from an apartment only a few doors down from the Paris headquarters of the SS — are too cinematic to ignore." •NPR"A true story that reads like a thriller." •New York Post"*Avenue of Spies* provides a lens into the life of a family's extraordinary espionage efforts...Gripping...and inspiring. This is a powerful book to read anytime, but especially as we mark the 75th anniversary of the Nazi occupation of France." •Missourian"Brilliantly captures the deadly cat-and-mouse game between Charles de Gaulle's underground and the Nazis and Vichy fascists...Kershaw's sobering look at a family's heroism in one of the history's darkest hours vividly shows what war costs in human terms." •Publishers Weekly"Kershaw portrays the suspense and terror of this time in the plight of one well-intentioned American-French family caught up in the horror. A tenderly engaging saga of solid research and emotional connection."

•Kirkus Reviews"An intense, moving account that also serves to vividly describe the life of ordinary Parisians under the occupation." •Booklist [starred]"Written with an engaging and expressive writing style, Kershaw's stirring tale of good and evil in the City of Light will have wide appeal." •Library Journal"[A] tense and compelling narrative." •BookPage"With a master storyteller's gift for character, pacing, and heart-stopping detail, Alex Kershaw transports us to wartime Paris, where one American family risked their lives to join the Resistance and defy Hitler. *Avenue of Spies* is a haunting, harrowing tale that reads like an elegant thriller, with the added benefit that every word is true. I was gripped by the first page to the last." •Karen Abbott, bestselling author of *Sin in the Second City* and *Liar, Temptress, Soldier, Spy*"*Avenue of Spies* is the best kind of spy story—a true one. Alex Kershaw has written a heart-rending thriller of espionage set in the darkest shadow of the Holocaust. A powerful story of quiet heroism."

Ã¢ ª •Kai Bird, Pulitzer Prize-winning co-author of *American Prometheus* and bestselling author of *The Good Spy* ª "Alex KershawÃ¢ ª's *Avenue of Spies* is a good book with a good story, but what I like especially about it is that it's an 'Americans abroad' storyÃ¢ ª •Ex-pat Nation is loaded withÃ¢ ª brave, idealisticÃ¢ ª people and the Jackson family numbered high among them." ª •Alan Furst, author of *Midnight in Europe*"*Avenue of Spies* is an unforgettable testament to the power of personal courage and conviction in the face of evil. Sumner Jackson and his family were caught in a vortex of fear and hatred that was as close as a neighborÃ¢ ª's door on Avenue Foch in Paris. They risked everything in the darkest hours of Nazi terror, determined to fight for human dignity and freedom. This isÃ¢ ª a story of resistance and bravery that is profoundly uplifting." ª •David E. Hoffman, author of *The Billion Dollar Spy* and *The Dead Hand*"A spellbinding tale of triumph and tragedy. Intimate and terrifying,Ã¢ ª *Avenue of Spies* isÃ¢ ª impossible to put down. This is Alex Kershaw at his best." ª •Annie Jacobsen, bestselling author of *Operation Paperclip*Ã¢ ª "Avenue of Spies delivers a crisp, pulse-pounding narrative. Kershaw recreates the drama and suspense of war-torn occupied Paris. A taut thriller, the book is centered on an intrepid American family and is filled with a cast of unforgettable characters. Avenue of Spies is like sipping a fine wine: sublime!" ª •Patrick K. O'Donnell, bestselling author of *First SEALs: the Untold Story of the Forging of America's Most Elite Unit*Ã¢ ª "Kershaw marries sterling research with first-rate storytelling to put readers on the occupied streets of Paris, looking back over our shoulders in fear. Avenue of Spies is a triumph, an outstanding addition to World War II history." ª •Gregory A. Freeman, author of *The Forgotten 500* and *The Last Mission of the Wham Bam Boys*Ã¢ ª ª"Kershaw is a master storyteller, and *Avenue of Spies*, like his previous books, reads like a thriller. From the opening sceneÃ¢ ª until the final desperate struggle that dominates the narrativeÃ¢ ª's conclusion, Kershaw has crafted a gripping, taut story that will keep readers turning pages long after they should have turned out the light.Ã¢ ª • ª •James Scott, *Charleston Post and Courier*From the Hardcover edition.

ALEX KERSHAW is the New York Times bestselling author of several books on World War II, including *The Bedford Boys* and *The Longest Winter*. He lives in Willamstown, Massachusetts.

Dr Sumner Jackson, an American surgeon did what most would not during the Nazi occupation of France, specifically Paris. Along with his wife Toquette, he oversaw the saving of lives at the American hospital in Paris during WWII. Her recruitment by the French Resistance community along with Dr Jackson managed to save the lives of downed allied flyers and then helped them return to

England by clandestine channels without discovery. Then, tragedy strikes. Seen through the heroism of this family and its co-conspirators, the truth of the brutality and death by the SS and its collaborators are gruesomely detailed. Alex Kershaw's research and writing provide intimate character development giving the reader the sense that they know each of them well. Many books have been written about the dark history of this period but Kershaw's focusing on one family's involvement, heroism and tragedy bring to light more clearly the realities of war. A must read for all, especially the "Deniers!"

Alex Kershaw in his latest book Avenue of Spies has lifted a hazy veil from history's eyes. Behind this curtain he has revealed the reality of Paris, France being occupied by Nazi German during WW2. The scenes and secrets of F Avenue in Paris are viewed before and after Nazie power by telling the reader a true story of the Jackson family; American physician, Sumner, Swiss born wife, Toquette and 12 year old son Phillip. Avenue of Spies takes the reader into a time tunnel of courage that shakes off fear and steps into heroes, while Nazi bullies betray not only their leader, Hitler but become the worst kind of cowards by torturing and killing men, women and children so they can conquer a city for their own narcissistic pleasures. Each detail of the temporary siege is researched by Alex Kershaw with integrity and personal interviews. As the story of the siege unfolds the reader becomes closely acquainted with not only the many tormentors of cruelty but the many of courage of the French Resistance and how they gave there "all" even through torture to protect those in their care. From beginning to end, the story holds the reader's thoughtful attention with the smallest of details to what the people ate, decorated their rooms, to the terror in their bravery even in the camps of cruelty. If one wants to experience the reality of history one needs only to read Alex Kershaw. To me, personally, it seemed like a guide book on how -Americans- should and could conduct one's self with pride that we had done all we could to defeat the enemy that might occupy us.

Incredible story, beautifully written, about this beyond brave family, active in the Resistance while living surrounded by the top Nazis in Paris. The whole book was fascinating - the most vivid portrait of occupied Paris that I have ever read - and I read it in a few sittings. By the middle I couldn't put it down. As much as I have read and heard about World War II, the Resistance, and the Holocaust, there was so much here that was new to me. What happened at Lubeck Bay right at the end of the war, for instance. And, of course, throughout, I kept asking myself what would I have done, had I been in their shoes. Quite a family, quite a story. Highly recommend.

If you want to read at least one great book this summer, I strongly suggest you pick this one. I feel as though I was transported to Paris, to Avenue Foch from the beginning of the German Occupation and stayed until the liberation-though in reality, it was only a two day stay. From the second I began to peruse the first page as I usually do when I get a new book, I could hardly put this down. Avenue Of Spies by Alex Kershaw has it all: guts and glory, horror, bravery, cowardice, greed, atrocity and heartbreak all with a backdrop of love, kindness and most of all, bravery. Alex Kershaw's writing style is spectacularly simple but gives the reader an acute understanding of what is happening which is rare when I read history, and is a sure sign of a good writer-I have read quite a few books about WWII this year, and this book by far is my favorite-but it's not even the history that is riveting in the pages of this book-it's the story of heroes. In this tale, Kershaw recreates the German Occupation in the City Of Lights. His subject is an American, Dr. Sumner Jackson, who lived on the posh Avenue Foch with his wife, Toquette, and their boy, Phillip. Dr. Sumner was the head doctor at the American Hospital in Paris and if that wasn't enough, he chose to help in the resistance against the Nazis as did Toquette and Phillip. Even when they could have gotten out, they stayed. Even when things got perilously close in danger they didn't leave-when the noose began to tighten on Foch Avenue and they were surrounded by the enemy, they stood firm. This book is inspirational. It could change a life. It could inspire you, dear reader, to be bigger than yourself. With the example of the human beings in the pages of this book, you could be bigger and better than ever and aspire to do good things. This is no mere history book, though the history is appallingly real, this book is more about humans at their best and their worst. This story is about real people who faced an empire and did not back down though most did. The hunger, the horror, the power the Nazis held over France was impressively strong and Paris fell with a whimper due in part by what had happened in Poland, but in the background there were people such as Sumner, his wife, Louise Marie Dissard, Violette Szabo, British Intelligence and other forces who were chipping away at the regime with the very real cost of being caught and murdered. The Gestapo and the SS had sinister ways in which to capture those in the resistance, such as the Funkspiel, where the Germans would impersonate a British spy after taking control of a their radio. In this way, and others, they were able to crack into the line of resistance fighters and gain valuable information. It was a cat and mouse game on Foch Street and the Sumners never knew when someone would turn them in or confess information after being tortured. Parisians left and right were either working for the Germans or had befriended them. So, if you want to read a really great book-pick this one. This is an incredibly great story. I can't recommend it more. I was literally stuck to this book for two days and while I wasn't reading it, I was talking about it. I would also suggest the Notes in the back of the book for further information.

and reading. I also see that Alex Kershaw has written several other books and I intend to get them. This is my great book alert for you. There is no way you would be disappointed reading about great heroes in the midst of terrifying danger in the most beautiful city in the world during one of the ugliest wars in history.

Less about the French Resistance than about an American Doctor who sacrificed everything including his family to stay at his hospital and to help everyone affected by the horrible war. You are torn at the end between whether they should have just fled to the US or did what they did and stay in France right under the Nazi's noses. An essay in the moral dilemma of the Hippocratic oath.
