## **Customer Reviews**

Great set of flash cards. I bought for my 3rd grader. It is nice that they have the problem and answer on the back. I also like that this is a full complete set.

I bought these cards for my son when he was learning multiplication in 3rd grade. They have worked really well! They are sturdy, you can't see through them and they go through the 12 times tables.

they work great and nice and big print
