Customer Reviews

I got this book for my granddaughter who is a big Dora fan. It is an interesting story and we have enjoyed reading it several times. Swiper is not in this book and we missed him. The story line is easy to follow and the pictures are colorful and bright. I would highly recommend this book to any Dora fan.

Always a theme and something to learn in Dora books and the kids love the characters as always. Good book to practice reading and develop language.

If only it was longer.... My son love it anyway. He loves Dora & Boots, and all the other characters! :)

I picked up this book for my son at a book sale at my work and was very impressed. My son is 5 and in kindergarten and is learning to recognize words. This book is great for that. In the text of the story, some common words (i.e. pumpkin) are replaced with small pictures with the word written underneath. This allowed my son to read the story with me and to start to recognize these words -- a great tool for learning to read. I think I'll be picking up some more of these books from this publisher.

Perfect for kids who are just learning to read. Allows them to tell the story by using pictures and words.

Great book. Nice read along with picture words

My daughter loved this book!
