Customer Reviews

Man, this is an unbelievable mix of books for the price you pay for it! When I first heard about it, I had already read 4 of the 7, but for the price, I couldn't pass it up. So not only did I get to read some amazing books that I hadn't read, I got to re-read the awesome ones I had read. Now I have found some new authors and some new series to read. A collection you shouldn't pass up, even if you have read a few of them!

This was an amazing anthology filled with an amazing line up of authors. This M.C box set has everything that you are looking for: smoking hot alphas, smart mouthed women that stand up their men, suspense, action, twists, turns and everything in between! This is definitely a set you should you start reading now. You will not be disappointed!

I was so excited when I heard about this anthology. You have seven powerhouse authors coming together in one book! Each book is unique so you won't be disappointed by this anthology. One click this book.

Tons of great MC reads all wrapped into one book! LOVED it!!!

This is a one click must!! If you have not read these authors now is your chance! These authors do not disappoint. If you are looking for great stories that pull you and can't put down then just hit the one click.... like right now!

im usually not a big anthology fan. i usually only like one or two of the stories, but i loved every single one! gah! perfect combination of tales with splendid authors that penned them. some of them have gained a new fan!

Seven amazing authors together in one scorching hot box set. This is a must read for 2017. I can't wait to read more from these amazing authors.

I won't complain too much because it was seven full length novels for 99 cents. However, when I compare this to CD Reiss' free alpha collection, I can't upvote just to be fair. There were a few good books and mostly meh novels. Glad I bought it though because I know which authors to check out in the future and which ones to avoid.
