## Customer Reviews

This book is Grrrr-ific! :) I knew my Grandsons would like it because of Daniel Tiger, of course, but I didn't expect the nice educational tools in the book. It asks questions like, "How many clouds are in the sky?" and then you can count with your preschooler, and they can lift a flap and the answer is there so they have the number recognition along with the counting. It has color recognition, shape recognition as well as sensory recognition (can feel the shiny soft baker's hat and smell the scratch 'n' sniff banana bread). Love it!

really great book! Beautifully printed!
